MEXICO MAKES READY WORLDLY RECOGNITION

(By Associated Press)
MEXICO CITY, Mar. 13.—(By Mail)—Reforms in the Mexican constitution designed to eliminate all obstacles to recognition of the Mexican government by foreign powers are proposed in the platform of the great liberal party which has just been revived after years of inactivity.

One of the paragraphs of the constitution which the party would reform is article 27, which provides for the nationalization of petroleum deposits and which the Mexican supreme court pronounced non-retroactive in a decision rendered in September last. Other reforms proposed in the constitution refer to labor, religious freedom and education.

"These fundamental changes will remove automatically all possible obstacles to an immediate recognition of the Mexican government by all foreign powers and will eliminate all pretexts for further revolution," asserted Antonio G. Canalisio, for many years a financial agent of the Mexican government in the United States and Europe who has taken active part in reviving the old party once influential in Mexico. "With these modifications the Mexican constitution will be superior in every respect to the constitution of 1857," Senator Canalisio added.

A national convention of the party has been called for next May.

Associated with Senator Fernando Iglesias Calderon, head of the party, the former president Eulalia Gutierrez and Alfonso Madero, brother of the late President Madero, besides Senator Canalisio.

WOMEN ELECT MAYORS IN TWO IOWA TOWNS

(By Associated Press)
DES MOINES, Ia., Mar. 28.—Activity of women in the political affairs of Iowa towns and cities at yesterday's elections, is believed to have brought about the election of two of their number as mayor and victory to candidates they endorsed in other towns, as well as defeat of Sunday movies at Ames and New Sharon, and the routing of the town's poll hall at Newmarket.

(By Associated Press)
DENVER, Colo., Mar. 28.—Mrs. Flora Hill, 30 years old, with babies, Billie, 16 months, and Marie, 11 weeks, tried to board a freight train in the Denver yards yesterday to join her husband in Davenport, Ia., according to the police who are caring for the woman in the matron's quarters of the city jail. Mrs. Hill, according to the story she told the city detectives, had been evicted from a rooming house for failure to pay rent.

(By Associated Press)
BRITT, Ia., Mar. 28.—With only one ticket in the field in yesterday's election, and that one hand picked by men, it looked like smooth sailing until the women of the town, some 300 strong, stormed the polls in the afternoon, wrote in the name of H. SMOKING WILL BE PERMITTED N. Y. WOMEN

Clerical Mistake Cause of Lid Being Clamped Down in Fashionable Cafes.

(By Associated Press)
NEW YORK, Mar. 28.—Police Commissioner Enright today lifted the ban on smoking by women in public as suddenly as he clamped it down last night, when he learned that Alderman McGuinness' anti-smoking ordinance had never been passed by the board of aldermen or signed by Mayor Hylan.

News that it was all a clerical mistake came like a reprieve from the gallows to the proprietors of scores of places where gratification for milady's passion for the soothing weed was the chief source of bread and butter revenues. Fashionable smoke shops for women had sprung up in Fifth Avenue, Broadway and other downtown centers, while Greenwich Village had come to depend almost exclusively on smoke runs to produce an atmosphere of Bohemianism, since the passing of the "cup that cheers."

SIAMESE TWINS MAY SUCCUMB TOGETHER

(By Associated Press)
CHICAGO, Ill., Mar. 28.—Joseph and Rosa Blazek, Czechoslovakian twins, joined together at birth, and known as the "Siamese Twins," are in a serious condition from yellow jaundice today, but physicians said an operation to separate them was out of the question for it would mean the death of both. ENGINEERS OF GREAT BRITAIN REMAIN ON JOB

MILLS RUNNING HIGH CAPACITY THIS DISTRICT

The MacNamara milling plant, with a maximum capacity of 3000 tons a month, is now operating on full time, and under the direction of Fred Nimms, efficient superintendent of the West End mill, is reported as effecting a splendid saving of values. Shipments aggregating around 2000 tons a month will henceforth be in order from the West End mine, while the balance of tonnage necessary will come from smaller properties of the district. However, the West End mine will furnish a sufficient amount of ore to keep the machinery operating at full speed, even though 2500 tons or more are required monthly.

The fact that the West End Mining company is now producing on an average of 200 tons of ore weekly, with a possibility that the amount may be increased by 200 to 300 tons, means much for the business life of the community. It has resulted in the working force at both the West End mine and the MacNamara mill being increased by a great many men.

With the resumption of operations on a number of properties in outside districts, which will be in effect as soon as the roads will permit of heavy traffic, the capacity of every mill in the Tonopah district should be taxed.

MINERS SAY THEY ARE READY FOR EXTENDED VACATION; OPERATORS INSIST THEY WILL CLOSE THE MINES

Appears and Talks for Two Hours Urging People to Proceed Get Busy

MOSCOW, Mar. 28.—Premier Lenin, discounting the recent reports of his illness, appeared yesterday before a secret meeting of the all-Russian communist congress, and spoke for two hours, according to today's accounts of the meeting, which was held in Kremlin palace. The soviet premier made many sarcastic and witty remarks while appealing to the communists to cease dreaming and theorizing and get to work.

(By Associated Press)
NEW YORK, Mar. 28.—After a week of preliminary skirmishing, the miners and operators sub-committee on wage-contract negotiations agreed that neither side could look for an easy victory in the present conference.

Miners with knowledge say that every anthracite colliery in the United States is unionized, and will cease production on the date fixed, and assert the men are "willing to go on a long vacation." Operators also express a willingness that the mines shall cease producing temporarily. They have taken a positive stand against any increase in miners' wages and have announced their intention of using every means to negotiate a new contract on a basis of decreases from the present scale.

HEROES GRAVES TO BE ADORNED ON MARCH 30TH

(By Associated Press)
INDIANAPOLIS, Ind., Mar. 28.—Graves of American soldiers, sailors and marines, who died in the world war, will be visited on Memorial Day by comrades in the American Legion both at home and abroad, according to plans announced at Legion national headquarters.

Legion posts in every community in America will take charge of Memorial Day ceremonies and decorate the graves of all veterans, it was said. While thousands of communities throughout this country are honoring the soldier dead in their midst, the distant graves in France, England, Italy and Russia will not be neglected.

It has been the custom of Legion national headquarters for the last two years to collect a fund from the 11,000 posts for this purpose. Committees are established to take charge of the funds in France and England, composed largely of Legionnaires, acting in conjunction with similar bodies of officials and citizens of the various foreign countries. Plans in all European countries, for operating with these committees, will assist the grave of every American who perished overseas while in the service is decorated, it was said.

Probst was held, however, for further deportation proceedings.

(By Associated Press)

The state, in its efforts to prove an assault on Sarah Schmoedoff called only one witness in rebuttal. Detective McGuinn, who arrested the sports promoter last January was the witness.

SWEDISH STUDENTS LIKE OUR COLLEGES

(By Associated Press)
STOCKHOLM, Mar. 8.—(By Mail).—Swedish students and scholars who have been enabled by scholarships to pursue postgraduate work in America have found much to admire in American universities and colleges and are telling their folks at home about it when they return or in letters.

American university life seems to have captured their good will while American scholarship as represented in the larger universities has evoked their praise.

What has completely won Swedish scholars, they say, is the liberal spirit and generosity of American colleges in enabling the Swedish visitors to prolong their stay by additional scholarship grants.
